 Marco Island, FL

SUMMARY

Experienced Senior Full Stack Developer, AI Engineer, and DevOps Specialist with over 12 years in web/mobile app development and 4 years in AI and machine learning. Proficient in designing scalable infrastructures using DevOps practices, crafting innovative solutions, and driving collaboration to exceed client expectations.

EDUCATION

B.S. Computer Science
Southern Methodist University
 2008 - 2012

EXPERIENCE

DevOps Engineer
Accenture
 10/2023 - Present

- Designed scalable 3-tier app infrastructure in AWS using Terraform.
- Improved deployment speed by 30% using Kubernetes and CI/CD with Jenkins and Ansible.
- Implemented CDN using AWS CloudFront; set up ELK for log monitoring.
- Conducted POCs with GitHub CI/CD and Terraform for AWS/GCP.

Senior Full Stack Developer / AI Engineer
Accenture
 09/2021 - 10/2023

- Improved business efficiency by 25% through leading 2 AI projects using ML algorithms.
- Designed full-stack applications utilizing React, Node.js, and Python.
- Mentored team members and implemented reusable code libraries.

Senior Full Stack Developer
BigCommerce
 12/2017 - 09/2021

- Increased ROI by 15% by developing predictive analytics for user segmentation.
- Increased platform scalability by 35% through collaboration with cross-functional teams on the Feedonomics platform.

Full Stack Developer
Deloitte
 09/2012 - 12/2017

- Increased application security by 30% through implementing best coding practice compliance measures.
- Enhanced system reliability, resulting in 15% fewer defects by integrating robust testing in SDLC.

SKILLS

Programming Skills

JavaScript

Java

Bash

Python

Databases & Cloud services

MySQL

PostgreSQL

MongoDB

Redis
